

Survey
Solar (Photovoltaic, Solar Thermal, CSP)
& Solar Glass

glass global consulting GmbH

Dipl.-Ing. Hans Mahrenholtz / Dipl.-Ing. Andre Ommer

February 2011

Content

1.	Solar Technologies	4
	(a) Overview	4
	(b) Basics	4
	(c) Types of Solar applications	4
	(i) Photovoltaics	4
	(ii) Solar Thermal	5
	(iii) CSP	6
	(d) PV Module Manufacturing	7
	(i) c-Si	7
	(ii) Thin film	14
2.	Solar Markets	20
	(a) Overview	20
	(i) Photovoltaic	21
	(ii) Solar Thermal	22
	(iii) CSP	23
	(b) Feed-In Tariffs	24
	(c) Historical development of Solar power production	25
	(d) Market Outlook – various scenarios	30
	(e) Cell producers	34
	(f) Module producers	36
3.	Solar Glass	41
	(a) Overview	41
	(b) Glass types used for Solar applications	42
	(c) Glass Chemistry	44
	(d) Glass Production	46
	(i) Batch	46
	(ii) Melting furnaces	48
	(iii) Conditioning	51
	(iv) Forming (Float & Patterned Processes)	53
	(v) Cooling	57
	(e) Glass Processing	58
	(i) Cutting	58
	(ii) Grinding	60
	(iii) Toughening	62
	(iv) AR coatings	65
	(v) Self Cleaning	66

(f) Module designs	66
(g) Glass specifications	69
(i) Specifications overview.....	70
(ii) Testing procedures	72
(iii) Certification	74
(h) Reflectance, Absorbance, Transmission	75
(i) Beer's law	75
(ii) Transmission - Iron content	76
(iii) Transmission - Silicium responses	77
(iv) Transmission - Fe ²⁺ /Fe ³⁺	78
(v) Transmission - Glass thicknesses	79
(vi) Transmission - Costs for glass raw materials	80
(i) Parameters for Float & Patterned Glass Lines	81
(i) Overview	81
(ii) Machinery Investments	82
(iii) Production costs	84
(iv) Feasibility studies	87
(v) SWOT analysis	89
(j) Today's Solar Glass Prices.....	90
(i) Overview	90
(ii) Float Glass.....	91
(iii) Patterned Glass	93
(iv) Tubes	95
4. Solar Glass Markets	96
(a) Overview	96
(b) Today's markets.....	97
(i) Flat Glass.....	97
(ii) Patterned Glass	99
(iii) Tubes	100
(c) Market Outlook.....	101
(i) Europe	101
(ii) United States	102
(iii) China.....	103
(iv) India	104
(v) Middle East	105
(vi) Other countries and regions	106
5. Graphic Index	108
