Fuyao Group

Fuyao Glass Industry Group Co. Ltd (briefly "Fuyao Group" or "FYG") is one of the top 5 largest Automotive Safety Glass manufacturers in the world's automotive industry, and a public listed company in Shanghai Stock Exchange in China.

Over 20 years' experience of supplying auto glass parts to vehicle makers, Fuyao has been fully equipped with necessary machines, laboratories, and certified teams to supply quality products to OE customers. It also enables Fuyao to supply OE equivalent products to the aftermarket.

The Founder and the Management:

Mr. Cho Takwong, Chairman of Board of Directors of Fuyao Group, was one of the earliest Chinese entrepreneurs participating in China's "Open and Economic Reform" Policy 30 years ago by sub-contracting the management of a small water meter glass company. He transformed the company into an auto glasses maker and earned his "first barrel of gold".

Mr. Cho founded Fuyao Group in 1987 and led the company to grow from an insignificant glass company to a global industry leader during the past 20 years. Mr. Cho won the award of "Ernst & Young World Entrepreneur Of The Year 2009" at a ceremony held in Monte Carlo's Salle des Etoiles on May 30, 2009 to recognize his vision, leadership, determination and sheer hard work.

Mr. Steven Tso, son of Mr. Cho Takwong, joined Fuyao Group in 1990. Mr. Tso was CEO of Fuyao (Hong Kong) Ltd during 1994 to 1996, he became CEO of Fuyao North America, Inc soon after his graduating from MBA education in USA. Mr. Tso was appointed as CEO of Fuyao Group since December of 2007.

Led by Mr. Tso, Fuyao successfully launched the Corrugated Packaging System, and introduced it to Fuyao Auto Glass Supply in 2008. Fuyao then had the best performance ever achieved in 2009.

20 years Achievements

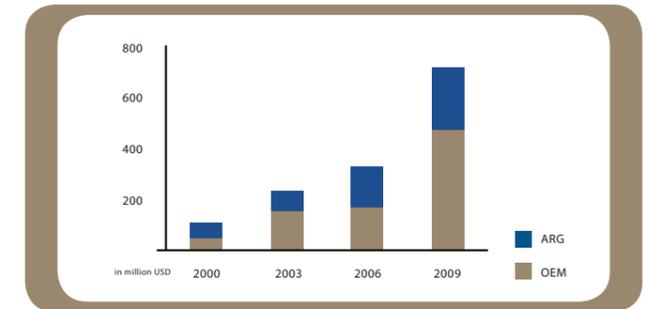

Capacity:

During 2009, Fuyao achieved a capacity of more than 18 million car sets to serve the global automotive OEM and Replacement supplies.

Sales:

There are more than 50 million pieces (per year) of Fuyao made auto glasses installed onto new vehicles, equivalent to more than 30 pieces (per minute) of Fuyao made auto glasses used in replacement service.

Environment :

Environmental responsibility is not just a slogan or marketing gimmick. FYG acts as a responsible member of the earth village and it takes solid steps in shaping a better world. FYG is accountable for the public in the environmental respect via various means and measures :

- use non-Lead Material
- adopt Corrugated Box Packaging
- recycle Scrap Materials
- recycle water
- install Sky Window
- control emission

Fuyao Product Logo:

The usage of **Corrugated Box Packaging System** helps the environment by saving 200,000 trees per annum. It also provides ease in handling and cost saving while recycling the packaging materials.

福耀

Fu Yao

“Fu” & “Yao” in Chinese mean fortune and shining respectively. “Fuyao” means sharing the fortune.

“Fuyao” delivers the message of safe, peace in mind and care to the green planet.

You could be an auto glass distributor, retailer, installer, insurance provider or a driver, when you make the choice of using FYG products, you will not only enjoy

“Quality, Cost Effectiveness, Professional Service”,

but also join our effort of

saving 200,000 trees every year

as well. This will be the most valuable treasure that can be left to our children.
