Address	DGT - Anlagen und Systeme GmbH Gas Filling and Testing Technologies Muehlweg 1 Industriegebiet Sauerlach-Ost D-82054 Sauerlach
Country	Germany
Phone	0049 8104 89190
Internet	www.DGTMuenchen.de
Employees	5 - 9
Year founded	1997, active as DCL Glas Consult GmbH since 1977
Export Rate	85 %

CONTACT PERSONS

Contact 1. Mr. Dipl.-Phys. Heinz Drobe
General Manager / Owner
Phone: +49 8104 8919 0

PRODUCTS OR MACHINERY

The comprehensive range of I.G. - gasfilling equipment worldwide:

Comprehensive product lines, offering a reliable range of standard products, with many additional, customized options available for all specific needs
Highly flexible alternatives to gas filling presses - similar cycle times, at much lower investments: easy to be operated, reliable and efficient
Easy start-up and self explaining push-button operation
Multi-sensor controlled, reliable results
No external calibration, but automatic internal routines
More independent outputs to reduce cycle time (optional)
Precise and reliable gas-sensing, proven in more than 1900 installations to offer leading technology
Reliable operation down to 1 bar (15 psi) input pressure
Internal sensor gauging and automatic self-test routines
Compact and rugged design, lifetime-checked components
Exchange modules and complete filling stations units always on stock for emergency express service

Testing equipment to easily determine gasfilling concentration of sealed units:

Mobile and handy Instrument
Easy start-up and quick operation
Easy and quick calibration without test gases
Compact and rugged design
Integrated pump for easy sampling-technique

COMPANY BACKGROUND / HISTORY

Since 2018, DGT – Anlagen und Systeme GmbH, Munich/Germany, offer a completely renewed, comprehensive and technologically advanced range of sensor-controlled gas fillers and gas testers for modern Insulating Glass Manufacturing worldwide, customized for all different production technologies to reliably produce and gas fill sealed I.G. units.

To support and advise customers all over the world DGT can rely on the unique expertise of their technicians and engineers, who originated, developed and optimised gas filling technology since the late seventies, as the former DCL Glas Consult GmbH:

- Easiest possible operation and calibration
- Highest efficiency and speed, by multi-sensor control
- Reliable results at highest flowrates worldwide

are combined in DGT's products to help you with the production of all standard I.G. units, but as well for bent I.G. units and all oversize or undersize specialties with inner structures/foils/lead glass/blinds - easy and reliable.
