PRODUCTS OR MACHINERY

Soleras Advanced Coatings delivers complete solutions for the deposition of high quality coatings for the glass, photovoltaic, display and metal sector. We continue to differentiate ourselves by offering a combination of solid rotatable sputter hardware and a broader range of sputter targets. Not only are we reliable targets suppliers for sputter coaters, we are currently the only global player with a complete product offering and one of few players with a global footprint.

Our branches around the world produce coater equipment and targets for PVD (Physical Vapor Deposition) applications.

Learn more about our services and the possible applications of our technology. Feel free to contact us with any question you may have.
