General text:

In 1992 Stölzle acquired a small Czech glass factory in Hermanova. Major investment turned this small gasworks into nowadays most reliable partner in the field of pharmaceutical packaging glass and miniatures for food & spirits. Within the network of the Stölzle Glass Group, the production capacity of the Czech plant was constantly expanded. On Christmas Eve 2009 the plant suffered a tragic setback when a disastrous fire destroyed almost the whole production site. Staff from all the different STO plants united in an almost superhuman effort that saw Stölzle-Union reopened in an incredible seven months. But the factory was not simply rebuilt – it rose from the ashes to become one of the best production sites for pharmaceutical packaging glass in Europe. Stölzle set up a regenerative furnace remarkable for its very low energy consumption and optimized NoX emission.

Certification:

- GMP/ISO 15378
- ISO 9001
- ISO 50001
