## PRODUCTS OR MACHINERY

Lauscha Fiber manufactures glass microfibers in four distinct glass chemistries, with nominal fiber diameters ranging from 0.33 µm to 5.0 µm. These fibers are produced under strict quality control, and are tailored to meet specific applications and customer needs. Our fibers utilize uniform diameter distribution, purity and low shot properties. We are also a distributor of other vitreous fibers including E-glass chopped strand, mineral wool, high-silica, and other glass rovings.

### Company Profile of **Lauscha Fiber International GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
