Address	The Green Glass Company 5801 Stella Ave. Weston, WI 54476
Country	USA
State	Wisconsin

PRODUCTS OR MACHINERY

The bottles are cut into two pieces: the bottom part becomes the tumbler, the top part lives on to become a goblet through a unique and patented process.

So, no part of the bottle is wasted and re-purposing the bottles into glasses requires only a fraction of the energy versus making glasses from recycled glass. Talking about a green glass..!

Bottles are also re-purposed into pitchers, vases, candle holders and even coat racks.

Each drinking glass features the Green Glass's PerfectRim™, a smooth, round rim for optimum drinking comfort.

Made from bottles meant to protect their content, the glasses are very durable; ideal for everyday use. All glasses are fully annealed so they are safe to use in dishwashers and can even be placed in the refrigerator.

Every effort is made to ship your glasses safely and eco-friendly. The glasses are packaged using recycled paper cup holders and bio degradable peanuts for impact protection, then packed in recycled cardboard boxes. Other glassware is wrapped in 100% recycled and reusable paper wadding.

It is simple, yet imaginative.

It is conceptually elementary, yet technologically complex.

It is an ordinary bottle, yet an extraordinary drinking glass. Cheers.
