## PRODUCTS OR MACHINERY

**Solar, solar technology, photovoltaics, solar panels, photovoltaic panels, solar cells, silicon**

Our company is planning and realizing solar cell/solar module production for many years. We attend companies, trade solar cells and solar components like silicone or solar modules and build and sell necessary production plants. Huge companies all over Europe, Asia and America use JvG Thoma production plants.

We started with the production of industrial plants for ready-to-use solar modules. In the meantime we are advisers for several major customers in Japan and Europe.
