# PRODUCTS OR MACHINERY

### **ZYAROCK® Tweels and Flat Arches**

#### Renefits

Reduced engineering costs
Maintenance free operation
Easy installation even during hot repair
No preheating required
Corrosion resistance
Exceptional thermal shock resistance

#### **ZYAROCK® Shadow Walls**

Zesuvius Zyarock® Shadow walls are manufactured under strict controls to provide optimum ceramic physical properties for stability at ambient and through the highest heat-treating temperatures.

### Benefits

Reduces CO2 emission Energy saving Lower maintenance cost Improved sealing High erosion resistance Increased productivity Reduced maintenance time

# **ZYAROCK® Lehr and Lift-out Rollers**

Vesuvius Zyarock® Lehr and Lift-out Rollers are Fused Silica products dedicated to the Float Glass application. The quality of the Fused Silica rollers takes full advantage of the very low reactivity with tin oxide at low temperature typically found in the ross box. They support the glass with minimum thermal and chemical interaction.

### Benefits

Non dusting
Fiber-free
Highly insulating, low density
Custom made parts
Fully machineable for easy use and rapid adjustment
Hazard free insulation

### ZYALITE<sup>TM</sup> Rolls

VESUVIUS ZYALITE TM Rolls are constructed from highly compressed ceramic fibers which provides a very durable conveying surface virtually resistant to transfer of material to the roll surface or back the surface of the glass. This technology is used for the production of active matrix glass for LCD applications but also in rolled and float glass annealing lehr, and for the vertical draw process.

#### Benefits

Resistant to build up (tin or sulfate derived compounds) Flatter and more uniformly annealed ribbon Eliminate lehr created optical distortion problems Excellent load bearing: 0.5 mm to 19 mm thick

Dimensional stability and low thermal conductivity Very durable

### **SMARTLY DRIVEN® Tempering Rollers**

Vesuvius Zyarock® Fused Silica Tempering Rollers are manufactured under strict controls to provide optimum ceramic physical properties for stability at ambient and through the highest heat-treating temperatures. Vesuvius provides the finest surface finish, the tightest dimensional tolerances, and the best hot TIR in the market. Our ZYAROCK® SMARTLY DRIVEN® Roller provides a "Green" solution by using an environmentally friendly end cap design.

#### ZYAFOAM® insulating products

VESUVIUS ZYAFOAM® is a Fused Silica insulating foam that has been engineered as a dust-free and fiber-free insulating product for the lining of heated chambers.

#### Benefits

Non dusting
Fiber-free
Highly insulating, low density
Custom made parts
Fully machineable for easy use and rapid adjustment
Hazard free insulation

### **ZYAROCK® Melting Pots**

VESUVIUS offers specially formulated Fused Silica ZYAROCK® Melting Pots for the melting of different glass types such as borosilicate, optical glass, colored glass, opal glass, crystal glass, electronic glass and other formulations.

#### **Benefits**

Ready to use product
No preheating or conditioning
Amorphous SiO² material structure provides excellent glass melt condition
Consistent material behavior throughout the industrial manufacturing process
Customized shapes
High purity composition
Proven comparable results vs. Fused Quartz
