PRODUCTS OR MACHINERY

The product range are specialised trolley's, designed to move glass around a factory, on and off sideloader glass trucks and onsite, including during glazing.

The Quattrolifts products have developed a niche market in assisting glaziers and glass workers (and are also being used by window fabricators, sheet metal workers, stone masons and carpenters) reducing heavy manual handling particularly "on site".

The benefits to companies using the QuattroLifts equipment have been:

- improved productivity
- reduced risk of injuries

QuattroLifts have sold over 400 units around the world since inception.
