PRODUCTS OR MACHINERY

The primary mission of Glass Alliance Europe is to provide a common platform to the European glass industries to enhance the exchange of information between national and sectoral associations at EU level, thanks to an efficient pooling of resources and expertise.

This platform is also used for the glass industries to coordinate views on common environmental and regulatory challenges, which affect our business. If the main focus of Glass Alliance Europe is placed on environmental issues, the pool of resources within the association also allows it to cover trade, social and/or any other relevant common challenge that may arise.

Ultimately, Glass Alliance Europe wishes to help strengthen the voice of glass industries in Europe and to convey a dynamic and responsible image of the glass industries, which adequately reflects the positive contributions of glass products.
