Address	AGP Plastics 2184 Trumbauersville Road Trumbauersville 18970
Country	USA
State	Pennsylvania

PRODUCTS OR MACHINERY

AGP Plastics first developed Noviflex® over 20 years ago as an alternative to polycarbonate for security and impact resistant laminations. Noviflex® readily adheres directly to glass without the need for urethane, has unsurpassed environmental durability and none of the moisture sensitivity and long term delamination concerns of other systems. Noviflex® has strength performance characteristics similar to polycarbonate and urethane systems at an economical price, and is generally considered easier to use.

Ballistics resistance
Assault / attack resistance
Vandalism
Extreme weather protection
Smash and grab protection
Privacy screens
Architectural security
• prisons
• detention centers
• embassies
• banks

Noviflex® is available in almost any commercial thickness and custom thickness can be easily produced on request. Noviflex® possesses excellent clarity, low haze and low yellowness and should be your first choice when looking to specify a superior interlayer in either a new or existing application.
