WEB-BASED WIRELESS SENSOR TECHNOLOGY

To improve quality control, minimize product damage and increase productivity and profits, leading companies around the world are turning to **MASITEK's** wireless sensor technology for the solution.

Providing devices that can easily and instantly detect problems in manufacturing, processing and handling facilities, **MASITEK's** innovative sensor technology immediately records and transmits valuable data to mobile devices on site and backs up the information on a server for later use. By detecting exactly where damage is occurring, **MASITEK's** unobtrusive sensor devices allows customers to make instant changes and validate that the corrective actions were beneficial within minutes.

The results: Reduced downtime and labour costs and improved product quality.

MASITEK Instruments Inc. provides a web-based wireless sensor technology custom designed to meet your impact detection needs. This state of the art technology is easy to use, easy to understand and provides efficient results immediately!
