PRODUCTS OR MACHINERY

GT-Vacuum Ring for production of laminated glass - The GT-Vacuum Ring is produced of a durable and flexible high grade rubber.

It is fabricated to fit your requirements regarding pattern and section length. The GT-Vacuum Ring can also be made with a bendable corner at any selected position. This ensures a good seal even around sharp angles. Our standard profiles cover laminate thickness from 4 up to 20 mm (0,16 - 0,79 inch).

- The GT-Vacuum Ring is cost effective.
- The GT-Vacuum Ring is easy to handle.
- The GT-Vacuum Ring is suitable for long and short production runs. We are currently supplying our GT-Vacuum Ring to laminators worldwide.

We are well prepared to use our experience in finding the right GT-Vacuum Ring for your application.

Company Profile of **Gummiteknik GTM AB**
