PRODUCTS OR MACHINERY

We are specialized in the following High-Tech-sectors:

decorative coatings for flat glass and container glass

Thanks to decades of experience combined with considerable efforts in research and product-development, most of the coating-related problems can nowadays be solved using environmental friendly, waterborne finishes. In addition, we offer and enhance the whole range of solvent-borne, medium solid coatings for industrial applications.

The support of our customers during the product introduction as well as the consultation concerning the accomplishment of current requirements (ecological examination, VOC-regulations, productivity increase) belongs to our service achievements.
