Address	TU Ilmenau FG Anorganisch- nichtmetallische Werkstoffe Gustav-Kirchhoff-Str. 6 98693 Ilmenau
Country	Germany

PRODUCTS OR MACHINERY

The department of **Inorganic-Nonmetallic Materials** is engaged in teaching and research on technology, processes and plants for the production of innovative glass and ceramics products.

We investigate the entire chain of the production processes, starting from raw materials, processing, and shaping of products to end of life management.

One focus of our research are interface reactions, which play a vital role e.g. in

- corrosion and degradation
- composites
- conditioning of surfaces.

Surface design is the key to higher quality and opens the way to new applications.

Company Profile of **TU Ilmenau FG Anorganisch- nichtmetallische Werkstoffe**

A service of glasssglobal.com, an affiliate of glasssglobal group.
