Address	<b>Foshan HanGlastech Automation Co., LTD</b> No. 12, Chengfeng Rd, Fengxiang Industrial Area Daliang, Shunde Foshan, Guangdong
---------	--

---

Country	China (People's Republic)
---------	---------------------------

## PRODUCTS OR MACHINERY

Our Main Transmission is by Servo Motor, which replaced traditional Long Shaft, and it's more stable and more convenient to do Machine Maintenance.

Now our working speed can go up to 12m/min, while others' max. speed is 6.8m/min, so the efficiency is almost doubled.

As you know, overseas customers always have various sizes of glass, and our standard size-changing speed is 7m/min, while others' max. speed is 3m/min and their standard is only 1.8m/min;

Grinding Motor is Germany SIEMENS brand, and all other electrical parts including servo motor are fully SCHNEIDER brand;

All Motor Bases are using High Precision Sliding system, which usage life and precision are much better;

We use Heavy-duty Structure as our standard, the Machine is at least 3 tons heavier than other Machines, which can better guarantee the Machine Stability and Products Quality.
