Longer Furnace Life

Extend the life of your furnace with a clear view of its true health. SmartMelter® measures the actual residual thickness of walls and helps you optimize the timing of overcoat and rebuild dates for longer furnace life. Operate longer with confidence by identifying early stage glass infiltration into the insulation.

Our team is focused on finding new and innovative solutions to challenging problems using cutting edge technology. Our specific core solutions include:

- Portable and integrated sensors for industrial asset life optimization
- Sensors for industrial process monitoring and quality inspection
- Material characterization systems
- Antenna on Touch sensor for consumer wireless devices
- Innovative, out-of-the box wearable and miniature antenna solutions

We Are Industry Pioneers

PaneraTech strives to be one of the most innovative Radio Frequency (RF) technology companies in the world, developing unique solutions that far surpass expectations. Our Smart Furnace Technology is the first of its kind. Our material characterization solutions expand the capabilities of specialty material research and manufacturing industries. Our out of the box antenna solutions reshape the wireless devices industry.
