PRODUCTS OR MACHINERY

Glass Printing and Bottle Decorating

In today's crowded marketplace, an exciting and distinctive package can set your product apart from the rest. Maximizing the capabilities of state-of-the-art application equipment, Stanpac can decorate virtually any glass container, with glass printing and bottle decorating, using a direct-screen printing process called Applied Ceramic Labeling (ACL).

Features and Benefits of Glass Printing Bottle Decorating:

- The bottle is the canvas for your design. There are no boundaries like those of the traditional label
- Distinctive package – different than the common label
- Your product is set apart from the rest
- The consumer sees printing directly on the bottle as premium and of the highest quality. A decorated package is used for some of the world's most recognizable liquors and spirits
- Printing directly on the bottle overcomes labeling issues on tapered or multi-shaped bottles
- There are no bubbles or wrinkles on the label to distract the consumer and lower quality perception
