PRODUCTS OR MACHINERY

Glass has uses in vehicles, constructions, household goods, medicine, food and beverage industry, kitchen tools as well as for scientific, decorative and artistic purposes.

As product in particular can be detailed as window glass, picture frame glass, glass table, glass shelf, glassware, automobile windshield and oven door glass. Depending on where it is used, the properties of glass substrate may change and we, as Akcoat, produce glass frits suitable for these properties of glass.

We, as Glass Coating Materials Department, develop and offer products by using the ultimate production technologies to our business partners in below segments:

Household Appliances

Tempered glass paints with high resistance (Bismuth and Zinc based alternatives are available)

Decorative Lines

Tempered glass paints

Glassware

Pad printing paints, Medium, Flux

Glass Packaging

Etch imitation paints, Thermoplastic paints, Forehearth coloring frits

Automotive Glass Paints

Bismuth based with high quality performance tempered glass paints

Special Lines

Dual prints, Cold press, Shatter Proof (Ask for more unique technology products)

Mediums

Carrier products for paints in different specialties

Frits

+40 years old frit production experience, various types of frits (With correlative glass expansion coefficient)

COMPANY BACKGROUND / HISTORY

Today a global leader in manufacturing chemical coating materials, Akcoat was founded in 1979. Akcoat manufactures 5 main product groups such as: enamel coatings, ceramics surface and decorative solutions, nonstick decorative coatings, glass coating materials, pigments. Head office of the company is located in Istanbul and manufacturing operations continue in its modern and fully-automated, state-of-the-art facilities located in Sakarya (Turkey) and Castellon (Spain). Although mainly present in Turkey and Spain, Akcoat has offices and employees in the USA and China. Akcoat is able to realize numerous new product developments and to present its clients with personalized solutions.
