PRODUCTS OR MACHINERY

Commercially available containment solutions geared towards specific biopharmaceutical requirements. The SG EZ-fill® pre-sterilized platform includes vials, cartridges, and syringes systems that are ready-to-fill and are available in both nested and tray configurations.

Three specialty product lines target different manufacturing needs ensuring outstanding performance.

The SG Fina® product line is a highly customizable solution for injectables. SG Nexa® guarantees high-performance containers for sensitive drugs, and SG Alba® is the breakthrough solution for biologics. In order to maintain consistent, high-quality standards, all our products and manufacturing facilities are compliant with the latest international requirements.
