## PRODUCTS OR MACHINERY

Norman & Underwood is one of the leading independent glazing companies in the UK, operating nationally on small, bespoke installations and multi-million pound contracts.

With more than 180 years' experience, we have the expertise and resources required for specialist refurbishment projects or major new builds. Working with leading developers, architects and builders, we've successfully tackled every type of project from restoring stained glass windows in historic churches to installing curtain walling and glazed roofs in futuristic technology centres. We also provide an emergency and replacement glazing service for local companies.

We were one of the founder members of the Glass and Glazing Federation (GGF) and have been fitting glazing systems since they were invented. We can advise on the best systems for any development and are approved installers for Pilkington Planar, Kawneer, Schuco, Metal Technology and other specialist acoustic and fire resistant glazing systems.
