PRODUCTS OR MACHINERY

If you're striving for efficient production of glass, you need a partner with precise knowledge of the industry's requirements, and whose products, systems, solutions, and services are custom-tailored to glass production. We put our decades of experience to good use, working with you to create the best automation for your operation, from batch plants to the heated area all the way to the cold end, including all manufacturing related sub processes. Our offering includes reliable power distribution systems, robust process instrumentation, high-performance drives, end to-end automation, and modular MES solutions. Our plant-wide automation standard is a holistic approach for increased transparency in glass production and further processing and, hence, increased availability, higher productivity, and improved cost efficiency.

You'll enjoy a wide range of benefits in every phase of your plant life cycle – during planning, operation, and when it's time for the next cold repair.

Supplier of Automation systems, drive systems, instrumentation, power distribution, Product-Lifecycle Management (PLM) Software

Distribution Trade-Names

SIMATIC, SIMOTION, SINAMICS, SIVACON,

Totally Integrated Automation, Integrated Drive Systems

COMPANY BACKGROUND / HISTORY

Siemens AG (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for more than 165 years. The company is active in more than 200 countries, focusing on the areas of electrification, automation and digitalization. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is No. 1 in offshore wind turbine construction, a leading supplier of combined cycle turbines for power generation, a major provider of power transmission solutions and a pioneer in infrastructure solutions as well as automation, drive and software solutions for industry. The company is also a leading provider of medical imaging equipment – such as computed tomography and magnetic resonance imaging systems – and a leader in laboratory diagnostics as well as clinical IT. In fiscal 2014, which ended on September 30, 2014, Siemens generated revenue from continuing operations of €71.9 billion and net income of €5.5 billion. At the end of September 2014, the company had around 357,000 employees worldwide. Further information is available on the Internet at <http://www.siemens.com>.
