monobutyltintrichloride (MBTC) manufacturer
tintetrachloride (SnCl₄) manufacturer
hot end coating of glass bottles (container)
laboratory analysis / service analysis
technical audits and process optimization for glass coating and glass factories
R&D of glass coating technologies

COMPANY BACKGROUND / HISTORY

Focused on quality for 20 years

BNT chemicals was founded in 1998 with the aim of producing alkyl chlorides and organotin products for a wide variety of applications. Due to its excellent infrastructure, the Bitterfeld-Wolfen chemical park was chosen for the site of this endeavour. Commercial production started two years later, initially on only four production lines.

BNT chemicals was acquired by IBU-tec advanced materials in 2018. Since then, the company has undergone systematic development in order to satisfy the requirements of a growing, worldwide customer base.
