COMPANY BACKGROUND / HISTORY

Obeikan Glass Company is a float glass manufacturer, a subsidiary of Obeikan investment group. It commenced its operation in February 2011.

The manufacturing facility is located in Yanbu industrial city, few hours from Jeddah port. It was designed and commissioned by Fives Stein, a French company with worldwide recognition for excellence in glass plant construction and supported by powerful quality inspection system by ISRA vision from Germany.

Its manufacturing capacity is 800 ton per day of clear float glass, to be produced according to international quality standards, in a range of thickness varied from 3mm up to 15mm. Obeikan Glass products exported to more than 30 countries worldwide, in Asia, Africa, America, Australia and Europe.

Facts and Figures :

Commenced operations in February 2011.

Largest glass manufacturing facility of its kind in the Middle East region.

Area :approximately 378,400 square meter

Production capacity 288,000 tons/year
