Country	USA

PRODUCTS OR MACHINERY

ITO films from Materion Large Area Coatings provide the basis for the latest innovations in electronic window privacy coatings and other large format, opaque film applications. These specialty films are designed to change the opaqueness of glass when power is applied for use in malls, windows, projection screens and large glass window wall applications, just to name a few. We specialize in advanced customization for ITO film resistance, which allows for greater variations and more uses.

This film is sold in rolls to a variety of customers, including glass manufacturers, and electronics manufacturers and can be adjusted to offer different performance levels for custom requirements. Film types include:

- Metal films for electrical contacts
- Conductive films from 450 ohms/square to 8 ohms/square
