PRODUCTS OR MACHINERY

Our experience allows us to guarantee high quality services, especially in the realization of the projects, thanks to the collaboration of workers specialized in refractory construction.

Refractories Experience's services include demolition and reconstruction, both partial and total, of the refractory structure, hot works, steel structures, draining, heating-up, cullet fill, combustion units and automation and control systems.

COMPANY BACKGROUND / HISTORY

Refractories Experience stems from the desire of aggregation of some entrepreneurs and collaborators with a long-standing experience, and highly qualified, in the field of construction of plants for hollow and flat glass production.
