Address **SURAGUS GmbH**
Maria-Reiche-Straße 1
01109 Dresden

Country Germany

PRODUCTS OR MACHINERY

SURAGUS GmbH is a spin-off of the Fraunhofer Institute for Non-Destructive Testing Dresden, and develops non-destructive testing systems for both inline and offline characterization of functional thin-films. There are different testing systems for sheet resistance and layer thickness measurement of wafer-based systems, metallic thin-films (Al, Mo, Zn, Ag), and functional transparent thin-films on glass and foils (ITO, Graphene, CNT, metal grids)

SURAGUS offers single-point devices as well as inline systems and mapping solutions for the quality assurance of thin film systems on glass and foil. The innovative measuring systems are contactless and fast. The measuring results are displayed through an easy-to-handle software.

A visit of our booth 14E06 will convince you of our EddyCus TF series.

Company Profile of **SURAGUS GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
