

Address **Gauzy Ltd.**
14 Hathiya Street
6816914 Tel Aviv

Country Israel

PRODUCTS OR MACHINERY

Amongst Gauzy's core areas of expertise is Liquid Crystal Film, which is used to produce LCG® (Liquid Crystal Glass). LCG® allows the gradual control of various forms of light when embedded into (Laminated) or retrofitted on to (RetroFit) transparent materials, such as glass or other plastic substrates. Gauzy also develops and produces SPD (suspended particle device), which like LC, allows control of light. In addition to light control films, Gauzy manufactures its own electrical hardware and verification tools, guaranteeing the best performing products in the industry. Our patented formulations and control technologies are available in various forms, making our product offerings diverse.

Company Profile of **Gauzy Ltd.**

A service of glassglobal.com, an affiliate of glassglobal group.
