Contact 1.	Mr. Wilfried Baustian Commercial Sales / Marketing Phone: 0049 5182 587 10 Fax: 0049 5182 587 30
Contact 2.	Mr. Uwe Gillert Key Account Manager Glass Phone: 0049 5182 587 24 Fax: 0049 5182 587 30
Contact 3.	Mr. Dipl.-Ing. Rainer Albes General Manager Gronau Branch Phone: 0049 5182 587 32 Fax: 0049 5182 587 30

## PRODUCTS OR MACHINERY

Renold Tooth Chain has always worked closely with customers in glass production. Smooth running and consistent speed prevents vibrations in vacuum coating plants and ensures proper coating of solar glass. Constant, uniform transport makes all the difference in the production of hollow glassware.

The use of a 2-pin system makes it possible to reach high speeds while maintaining a long chain service life while smooth lateral surfaces by innovative laser welding processes offer gap-free transition. The pins are permanently fixed in an outer plate of the same thickness.

Made within one component production run, Renold chains are offering perfect pitch precision and consistent wear elongation.

Renold has invented the TRILEG silent tooth chain with a significantly enlarged contact area for extended pitch chains.

Stainless steel conveyor chains of Renold are the best choice in terms of lifetime, insulation rates and energy cost savings. The lifetime is again multiplied by the use of rolling pivot joints made of wear resistant hardened steel and special grade stainless steel link plates. Any conveyor chain layout is possible.

## COMPANY BACKGROUND / HISTORY

Renold Tooth Chain now benefits from being part of a global chain company, with 120 years of experience in the field of research, development and production of inverted tooth chains. Renold itself has a great reputation for innovation, design and manufacturing skills. Its ranges of industrial chain, gearboxes and couplings are distributed around the world with operations in more than 20 countries and an international network of distribution partners.
