## PRODUCTS OR MACHINERY

Supplier of Moulds, Alloys, Neck Rings

Andreasi Alberto E.C.'s main activity (70%) consists of the construction of accessories (neck rings, plunger rings and plungers), while 30% consists of moulds for single- to quadruple-gob IS machines. Thanks to our experience in the field of metallization we have been able to produce neck rings made either completely or just their corners in metallized bronze aluminium.

### Company Profile of **Andreasi Alberto E C.S.n.c.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
