PRODUCTS OR MACHINERY

Supplier of Raw Material, Silica Sand

Our raw materials remain indispensable in their original applications, namely glass, foundry products, ceramics and chemicals for the building industry. Today, new products are exported to the entire world as filler materials with various surface characteristics and modified material properties. They make a significant contribution to the company´s success.

Our products and services form the basis for the quality of our customers´ finished products. Customer satisfaction is the primary goal of all employees in the company. To ensure the company´s future success, we are continuously improving the quality of our products and services.

Quarzwerke makes its contribution to environmental protection as well. Restoration of the natural surroundings directly follows the extraction of quartz sand.

COMPANY BACKGROUND / HISTORY

Quarzwerke is a medium-size international company, which enjoys a significant market position in the extraction and treatment of mineral raw materials. The company has various sites around the world.

We have been working with industrial minerals since 1884, primarily quartz, kaolin and felspar.
