## PRODUCTS OR MACHINERY

The production of float glass is one of the backbones of CSG. The corporation has large float glass production bases in Fuyong District of Shenzhen, Huangpu District of Guangzhou and Shuangliu County of Chengdu, capable of manufacturing over 1 million tons of substrates. Using high quality silica sand as the raw material and equipped with imported first-class float glass production lines, CSG can produce hundreds of varieties of float glass substrates with the thickness ranging from 0.55 to 19mm, widely used in the fields of architecture, automobile, scanners, copiers, PDP television, rear projectors and LCD, etc.. CSG is the only domestic enterprise with its own intellectual property rights for first-class float glass manufacturing technology. Among all the products, the 19mm ultra-thick float glass with its unique production technology has received a national patent. 3mm-thick glass used in scanners and copiers has become the only homemade substitute for foreign products. Green glass, 2mm thick, has been in strong demand from domestic automotive manufacturers. CSG's high quality clear glass has advantages in whiteness and transparency over competitor products. Low-E Coated Glass, Insulating glass, Laminated glass such as Security glass, Hurricane- and earthquake-resistant, Bulletproof, Prevention against sudden and violent attack, Reducing noise, Controlling; Tempered and heat strengthened glass, Solar Reflective Glass, Anti-pull-off Ceramic Plunger
