## PRODUCTS OR MACHINERY

**Products, systems and spare parts for hot end and cold end coating application:**

GlassChem HOT 99 (chemical for hot end coating)  
GlassChem CC 25 (chemical for cold end coating)  
GlassChem LP 25 (chemical for cold end coating)  
GlassChem HECSt (system for hot end coating)  
GlassChem DOS (system for hot end coating)  
GlassChem CES (system for cold end coating)  
spare parts for all existing systems  
Technical coating service, training and audits  
Glass additives and other products "around glass"

Special systems and special productions (in accordance with the customers' demand and the production facilities)

In addition to our products for the field of hot end coating and cold end coating, we are supplying products for mould lubrications as well as specialities for the glass production (e.g. insulating materials, heat-resistant materials).

## COMPANY BACKGROUND / HISTORY

### Our Philosophy

We understand our company as partner for our customers in the glass industry on the fields of hot end and cold end coating, coaching, service and transfer of information.

Hot end and cold end coating are the only contact points with chemical processes during container glass production after passing the glass furnace. For this reason, it is absolutely necessary to increase the acceptance of using chemicals in this technical application field. Thus we offer a close cooperation with our customers regarding application of coating products, control, detailed check of any technical problem and their removal.

**Fields of application**

Container glass / light weight bottles / jars / beer bottles etc.  
Cosmetic flacons / pharmaceutical flacons  
Table Ware

**References**

Direct contact to our customers world-wide  
Cooperation with agents in several countries, e.g. France, French speaking countries, India, Nigeria, China etc.  
Cooperation with most of the leading project engineering companies

Company Profile of **GlassChemConsult e.K.**
