PRODUCTS OR MACHINERY

Float Glass

Ghani Float is clear, high quality, bubble free, layers free, distortion free and 100% pure glass. Ordinary glass is a low quality glass bearing a lot of distortion, layers and bunch of bubbles, etc.

Ghani Clear

Ghani Clear, crystal clear and high quality float glass is a perfection created by GGL. Our superior quality float is the first priority of architects, builders, interior designers and civil planners for usage in interior and exteriors. Standing as leaders in glass, we hold the highest market share in the country.

Ghani Green

Ghani Green, the first ever green float glass of Pakistan, made in Pakistan, had been launched by Ghani Float. This green float glass is available in all thicknesses from 2 mm to 12 mm. Ghani Float did a tremendous effort from of going into color float glass successfully within just one year of its operations. Ghani Green has saved a lot of foreign exchange for the country, as the imports of green float glass from outside of Pakistan almost stopped.

Ghani Brown

At Ghani Glass Limited, innovation is our stance and R&D is our tradition. Keeping in line with this vision, Ghani Float has released the second color in its float glass range. This is a break through not only in the Pakistan's history but also worldwide that a float glass manufacture has given two colors to the market within two years time of its inception. The brand name for the brown float glass is Ghani Brown, which is also available throughout Pakistan in full range of sizes and thicknesses from 2mm to 12mm.

Ghani Reflective

Ghani successfully launched Ghani reflective (Brown & Green reflective glass range), serving to exterior and interior décor needs of architects and builders. Ghani reflective has gained marvelous reputation and brilliance in a short span of time and has become the first choice of builders, architects and civil engineers for desired applications of reflective glass.
