PRODUCTS OR MACHINERY

SPD Glass: Revolution In Glass SPD's main product is a revolutionary film which uses suspended particle technology to control the transmission of light when laminated between sheets of glass. The particles are aligned by an applied electrical voltage. SPD characteristics can be incorporated into glass, plastic or other transparent materials. The term "glass" will be used throughout this brochure, but please note that a full range of glass and plastics are available. Immediate Response Time SPD glass response time is almost instantaneous: less than 1/2 second. Its fast response time opens up numerous application possibilities.

Company Profile of **SPD Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
