PRODUCTS OR MACHINERY

Yorglas®, is a subsidiary company of Cam Merkezi, produces satin and decorative acid etched glass products without compromising quality and by adding value to the industry since 1989.

We have efficiently improved our techniques of acid finishing from tinted glass to mirror, from low iron glass to painted glass along with the years.

You can find the biggest assortment within our acid etched glass from scratch resistant anti-slip flooring glass to non-glare glass for marker boards. Our acid etched glass is used in many areas such as; interior decoration, glass stair treads, digital signage, shower screens, solar panels, cabinets, wardrobes, balustrades, office partitions and doors.

We always try to offer the best solution for the end user and processor with fingerprint free and 100% etched sheets among the other products such as sandblasted glass and patterned glass or laminated translucent glass where you need privacy and light.

Starting from October ’18 will be producing at our new mega factory. We will also add Jumbo size Acid Etched glass to our assortment.

COMPANY BACKGROUND / HISTORY

Yorglas, a subsidiary company of Cam Merkezi San. Ve Tic. A.Ş., produces satin and decorative products using acid etching method without compromising quality and by adding value to the industry since 1989. Our factory is constructed on an area of 7650 square meters, including an indoor area of 3850 square meters as the first satin and decorative glass producer. Yorglas as one of the top-ranked exporters in Aegean Region exports its products to 35 different countries.

We express our continuous innovation principle at every opportunity since our foundation. With this principle we aimed to improve ourselves and our stakeholders.

In 1989, our company has started to its leading operations as the first decorative and opaque glass manufacturer, however,along with the years, the production lines have been refurbished considering the advanced technology then our company put the Purification Plant into operation as a result of long, self-sacrificing, and hihg-cost R&D Works since it has focused on "zero pollution" target adopting not only to throw the first signing, but also aimed at offering the best.

Our company keeps on going ahead focusing on its target to convey our beautiful and green World to the next generations without any defect thus promises to continue being the leader in the innovations related to the environment and guides the market towards this way.
