## PRODUCTS OR MACHINERY

Our delivery program includes gas, oil, electrically and oxyfuel heated glass melting furnaces and auxiliary furnaces. For day tanks with a melting capacity/output of more than 500kg / day a recuperator for preheating of air is necessary. Our small day tanks are especially suitable for glass studios and show glass works. All plants are planned and designed according to your individual needs and will be installed and maintained worldwide. We deliver complete systems including process automatization, measurement and control technique. From the beginning until the end, we rely on quality and economic viability. IWG-tank furnaces are designed according to the requirements of our customers and for the following glass types:

soda lime glass - white and colored  
crystal glass - white and colored

### **IWG supplies the following tank furnace types:**

regenerative tank furnace  
recuperative U-flame tank furnace  
recuperative cross fired tank furnace - unit melter type  
Gas heated furnace for Neutral Glass and Borosilicate Glass  
Tank furnace for optical glass  
Pot arches - electrically heated  
Gas heated pot temper furnaces  
Combined, electrically heated pot temper and annealing furnaces  
Chamber annealing furnaces, gas and electrically heated  
Gas heated glory holes  
Complete boosting systems  
Complete heating systems  
Complete water cooling systems  
Complete bubbling systems  
Bottom glass draining system, discontinuous, continuous  
Stirrer units  
Stirrer units for platinum stirrers  
Batch chargers
