Glass Bottles and glass products decoration

The company "Galaxy Invests" – is the most prominent enterprise in Russia and CIS on glass products decoration.

Bottle and glass articles decor is carried out with the imported high temperature paints on the Italian lines by the method of silk screen printing. Decor is applied on the cylindrical and cone surfaces of glass produce with the subsequent kilning under the temperature 600°-620°С in the tunnel kiln. After thermal (heat) treatment silicate paints got imprinted indelibly. Articles are highly resistant to chemical and physical influences. All the decorated bottles and glass product have got quality certificate. Different technologies are applied while decorating bottles and glass products:

- direct silk screen printing;
- mechanical saturation of various colors and shades.

Glass packing, decorated with silicate paints has got an extremely high degree of protection from fake and very elegant appearance.
