## PRODUCTS OR MACHINERY

Bullseye makes glass in over 1000 varieties for uses ranging from stained glass to mosaic to blowing to torchwork. Our specialty is kiln glass where we've made our name as the first company in the world to formulate and manufacture glasses that are factory-tested for fusing compatibility. Glass, however, is only part of the equation — good tools and supplies complete the formula. Thus we search out, test and offer unique products to help our users make the most of our glass.
