PRODUCTS OR MACHINERY

Fully Automated, In-Line, Automotive Glass Inspection System
Fully Automated, In-Line, CRT Glass Inspection System
Container inspection for the brewing industry
Filled Bottle Inspection

100% QUALITY ASSURANCE

The AGI 9800 system was developed to meet the increased demand for defect-free glass products in the automotive glass manufacturing industry. The AGI 9800 Autoglass system incorporates state-of-the art technology and deliver fully-automated, on-line inspection of laminated and tempered autoglass. Turnkey system models are available for use in all stages of the manufacturing process, including unprocessed, in-process and finished.

The AGI 9800's modular system architecture can be configured to accommodate a variety of different shapes and sizes of glass. In addition, up to six laser optics/imaging modules can be used in combination to detect all types of glass defects, or independently to detect specific defects such as edge and surface defects. The result is 100% quality assurance and an unprecedented number of other benefits to the glass manufacturer.

Company Profile of **SynergX Technologies Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
