## PRODUCTS OR MACHINERY

Cylinder brushes are used in horizontal and vertical glass washing machines. Manufactured in two forms as spiral and stapled brushes. Brush bristles selected through experience and care ensure washing of standart and coated glass without damaging its surface.

Glass washing brushes we manufacture are used by leader companies of European, Asian and Turkish Glass Industry in automobile glass lines, laminated glass lines, dyes, acid, mirror, sandblasting and bavelling machines.

Users may configure their own brush through modular segment brush system (MSF) we have created. Thus, an effective alternative is provided by ensuring significant savings in production, transportation and storage costs.

Company Profile of **KALKAN FIRÇA VE ENDÜSTRİYEL ÜRÜNLER SAN. VE TİC. LTD. ŞTİ.**

A service of glassglobal.com, an affiliate of glassglobal group.
