PRODUCTS OR MACHINERY

NEW PRODUCTS AND TECHNOLOGIES

LineScanner by Softsolution

All in one quality inspection with worldwide unique real scanning technology

Osprey 10® Inspection System by LiteSentry

Featuring the only optical technology that measures all forms of distortion.

CulletScanner by Softsolution

Automatic fragmentation image analysis with optional anisotropy and edge stress function.

LineScanner Reflection by Softsolution

Detecting white haze on tempered glasses with the Softsolution LineScanner Reflection.

Owl® 5 by LiteSentry

Recipe Selection + Fault Detection System

Our popular optical system, the Owl™ 5 increases throughput and efficiency by detecting faults at the start and optimizing your recipe selection and furnace control.

Hawk® 4 by LiteSentry

Scratch + Defect Inspection System

The Hawk® Scratch + Defect Inspection system for IG/Double Glaze fabrication, tempering, and coating lines detects a wide range of scratches, digs, and other defects.

TemperQC™ by LiteSentry

Complete Tempering Quality Control System.

TemperQC™ integrates LiteSentry Systems and third-party equipment into a unified Tempering Quality Control system.

VirtualDigitizing by Softsolution

A software application for flexible digitization solutions for templates that can be used easily and quickly in any industry.

TS Series of Thickness & Coating Sensors

Discover what's possible with the TS 4000!

Strainoptics' GASP® Polarimeters

Used on Architectural Glass or Automotive Glass

The GASP® is the industry standard polarimeter for measuring the surface stress of glass.

BowScanner by Softsolution

Deflection Measurement for Minimizing Breakage Risk and Downtime.

COMPANY BACKGROUND / HISTORY

Glassquality.com is an innovative industry leader born from the harmonious merger of renowned scanner specialists LiteSentry and Softsolution in 2021. This strategic alliance has not only strengthened the company but has also seamlessly integrated the expertise of two pioneers in the glass inspection and quality assurance domain.

LiteSentry, established in 1999, has a rich history of developing cutting-edge technologies for the precise inspection and measurement of flat glass and plastic sheets. With a customer-centric approach and a passion for solving complex challenges, LiteSentry has installed over 400 inspection systems and 1,000 sensors worldwide. The company's commitment to setting the standard in glass inspection, from initial load validation to defect detection and orientation, perfectly complements Glassquality.com's mission.

Softsolution, a global leader in automated quality assurance systems for the glass industry, brings over more than 20 years of experience to the table. Based in Waidhofen, Austria, the company is renowned for its high-performance technologies that ensure stability, operational safety, and unparalleled performance. With a focus on technology, error detection and avoidance, and customer-centric solutions, Softsolution's values align seamlessly with Glassquality.com's commitment to excellence.

In addition to these partnerships, Glassquality.com also integrates the expertise of Strainoptics, a company founded in 1985 by stress analysis authority Alex Redner. Strainoptics is a world leader in stress measurement instrumentation and optical inspection equipment for the glass and plastics industries, providing comprehensive stress measurement solutions to optimize production processes.

As a united entity, Glassquality.com stands as a global force with locations in Burnsville, USA, and Waidhofen, Austria. The merger not only brings together the strengths of LiteSentry, Softsolution, and Strainoptics but also underscores a commitment to customer satisfaction by retaining existing teams of skilled employees. With a shared vision of pushing the boundaries of glass inspection and quality assurance, Glassquality.com is poised to lead the industry into a new era, offering professional, customized solutions and setting unparalleled standards for excellence.

LiteSentry LLC
2170 County Rd 42 W
Burnsville, MN 55337
