## PRODUCTS OR MACHINERY

Amex produces silicon wafers for solar and electronics applications, epitaxial and diffusion structures, high power transistors, Shottky diodes and other.

The company has modern equipment for the wire saw cutting, lapping, polishing and edgerounding. The special technology of the electronic wafer cutting allows us to match advantages of the wire-saw (high yield of the wafers) with the good geometrical parameters. LPE machine allows producing epi- structures up to 6".

Company Profile of **AMEX Ltd.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
