Address	Dr. Valentin EnergieSoftware GmbH Stralauer Platz 34 10243 Berlin
Country	Germany

PRODUCTS OR MACHINERY

Standard Software

- * T*SOL® – the programme for the simulation and design of solar thermal systems – simplifies the conception and planning of solar heat provision.
- * PV*SOL® – the programme for the simulation and design of photovoltaic systems – supports the sizing of PV systems and determines the economic efficiency.

Updates of our standard software programmes are released on a regular basis. The programmes are available in English, German, French, Italian and Spanish.

The Software Development activities of the company make it possible to convert our collected know-how into new products. We provide services to industry, trade and educational institutions throughout Germany and increasingly across Europe.

Our Software Development service covers the following area:

- * The development of Design Software for company-specific applications for individual clients
