PRODUCTS OR MACHINERY

Photo Emission Tech., Inc., manufactures and markets solar simulation systems that meet ASTM E927 (Japanese Standard JIS C8912 and European Standard IEC 60904-9) Class A and Class B requirements. These systems can be used for checking Photovoltaic Cell Performance and in any other application where the effect of exposure to sun light needs to be studied, such as photochemistry / photobiology testing and environmental exposure testing. Five standard systems are available for each class. Systems can be manufactured with three different air mass (AM) filters: AM0, AM1 and AM1.5.
