Address	<b>Höllmüller Maschinenbau GmbH</b> Kappstrasse 69 71083 Herrenberg
Country	Germany

## PRODUCTS OR MACHINERY

Setting new standards with the power of thought. Our work is a dynamic process. New developments in process engineering and ongoing product optimisation are decisive factors in meeting the changing market requirements of the electronics industry. The flexibility of our thinking is demonstrated in the high number of patents application and the constant quest for forward-looking new developments. Some developments from HMS, such as HDF-Tsunami, ComPlate, touchfree Transportsystems are often a technical given in circuit board production. Since the compatibility of our machines is particularly important to us, in future we will continue to assure our customers that they can stay abreast with technological change without incurring major financial expense.
