Address	Mondragon Assembly Poligono Industrial Baintxe-Pab. 5-A 20550 Aretxabaleta
Country	Spain

PRODUCTS OR MACHINERY

Soldering cells is a crucial process as it must ensure that the joins between the silicon crystal and the tinned copper strips are optimal for the electricity to flow between them properly and for this join to last, so it is a key process to ensure the module's quality and longevity.

The Mondragon Assembly Tabber & Stringer offer a combined process to sold the front and back of the cell, based on infra-red technology and which adopts all the valid technological advances to minimise breaking the cells.
