PRODUCTS OR MACHINERY

We achieve this by co-operation agreements with leading manufacturers of photovoltaic modules. This ensures secured availability at attractive prices. We also make the highest requirements on the efficiency, durability and reliability of the second key component in a PV system, the inverter. In this, we rely on the two market leaders for grid infeed equipment, SMA and Fronius. The assembly system developed by Phoenix Solar ensures simple and reliable assembly. We can supply you with all accessories for the simple assembly of your solar power system. We will gladly relieve you of the planning and technical design of your solar power system.

Company Profile of **Phoenix Solar AG**
