PRODUCTS OR MACHINERY

Based on more than two decades experience in designing and manufacturing of lasers, laser systems and OEM-based solutions, Quanta System engineers have developed a deep know-how in opto-electronic technologies to conceive and carry out a wide range of laser devices whose features fit many different applications for science, medicine and industry. Quanta System's technology is extremely flexible for the design of customised laser and laser systems, providing the customers with the availability to bring variations to standard designs.
